Powergistics Business Series
Charging And Storage Towers
Increase Productivity

Secure and Space-saving charging and storage solutions for your laptops, Chromebooks, tablets, cell phones and handheld devices

If you need an easy-to-use yet dependable charging and storage solution for laptops, Chromebooks, and tablets, look no further than PowerGistics Tower business series.

Device Readiness, Security and Safety

The obvious benefit of the PowerGistics design is the see-through asymmetric door. This allows you to clearly see if all the devices are charging. You can charge, store, and secure your device and walk away. It's that simple.

Results for Today and for Tomorrow

PowerGistics Towers are designed specifically to evolve to your future charging and storage needs. Devices, office layouts, and your deployment needs will change in time.

Charge, Store and Secure your power-hungry devices all in one place and look good doing it.

One of the most frequently cited reasons that businesses choose PowerGistics is because we simply look better. Our Tower and Desktop business series is classier, with a premium look and feel. For businesses who are more

design-conscious Powergistics is a natural choice.

If you're a retailer, you can increase dwell time (and boost sales)

A customer who has locked away their phone at your store is a customer who is going to stay longer, and shop more. It takes at least 15 minutes to get enough of a charge to be able to use your phone again if you reached zero battery (and over an hour to go from 0 to 100!). That's time that the shopper will most likely spend browsing your store.

PowerGistics Towers are ideal choices for:

✓ Healthcare   ✓ Restaurants
✓ Enterprises   ✓ Government
✓ Manufacturing   ✓ Waiting rooms
✓ Public Safety   ✓ Training rooms
✓ Retail   ✓ IT Departments
✓ Hospitality   ✓ Common Areas

PowerGistics products are proudly made in Wisconsin. All our products are engineered with purpose and functionality in mind, and built to last. We are a family-owned company, driven by innovation and integrity, We believe in providing products that make life easier and help solve problems.

About the PowerGistics Family.

The history of PowerGistics, a G.D. Roberts Manufacturing Company, is a the story of its people. From its founder Griffith D. Roberts in 1870, to the many employees, customers and educators who have all played a vital role in the company's rich history. Since our start back in 1870, we have been solving complex problems with simple solutions. We believe in providing products that make life easier and help solve problems. All our products are engineered with purpose and functionality in mind, and built to last. We are a family-owned company, driven by innovation and
