Just-A- Stand Set up
7/32 ALLEN WRENCH   SCREW DRIVER

Hardware Included
*NOT ACTUAL SIZE

LOCK WASHER   ALLEN BOLTS   MOUNTING SCREWS   ADJUSTABLE FEET

QTY - 4   QTY - 4   QTY - 8   QTY - 4
STEP 1

Screw in ADJUSTABLE FEET into the LEGS.

STEP 2

Laying frame on elevated surface, attach LEGS with ALLEN BOLTS. The curve of the legs should face out, and the longer part of the LEG should be pointed up when installing. Insert Allen Bolts with Lock Washers.
Tip: Small threaded holes should face up.

STEP 3

Place stand upright on the floor. Look at Tower to identify which attachement holes in the stand match up with the key holes in the Tower. Insert those screws into the stand half way.

STEP 4

place Tower on stand making sure that the heads of thosee screws are through the key holes in the tower.

Carefully lower the Tower to ensure that the tower is held up by the screws.

STEP 5

Sometimes Tower may need to be pulled down slightly to get those screws to "seat". Insert final mounting screws into the tower. Fully Tighten all the mounting screws.
