

Our mission is to enhance the learning environment. We believe that access to classroom technology should be effortless for students and teachers. When you remove the physical barrier of accessing technology in a classroom, when you eliminate the logistical risk of uncharged, damaged or missing laptops, classroom technology ceases to be just a resource; rather, classroom devices transform into a powerful, personal education tool for every student.

When technology is integrated in the physical classroom environment and easily accessed by students of all ages and abilities, it empowers all students to engage with their educational technology. Through this access, students are accountable for managing their own devices, learning the important habit of responsibility. By unburdening the teachers of this daily device management task, precious minutes are returned to teachers every day, strengthening their ability to teach.

We believe charging solutions should evolve based on the needs of the classroom, and allow for a transformation from wall mounted, to wheels, to stationary placement

options. When devices are capable of seamlessly integrating into the natural flow of learning, rather than a hassle to retrieve or an afterthought, teachers are emboldened to incorporate classroom devices into their lessons more creatively, enhancing the learning environment. When classroom technology is disorganized, uncharged, or difficult to access, it's human nature to be discouraged from using it to its true potential.

We believe it's necessary for the charging solution to be intuitive, thoughtful, and designed to enhance the learning environment. It should be versatile, and allow students to safely manage their own devices, saving time and energy for teachers. When a charging solution has an intuitive design, there is an inherent domino effect of time saved for IT staff as well.

A charging solution that cares about IT staff prioritizes a maintenance-free cable management design. A thoughtfully designed charging station eliminates device damage, keeps devices cool, ensures the tech and power bricks are locked separately, reduces the risk of students dropping the devices by allowing devices to lay in their natural flat position, eliminates damaged or tangled cords, and arrives fully assembled.

We're not just another cart or charging solution.

We're PowerGistics.
